SIMULATION ONLY. This extract is generated benchmark evidence, not an official source, not legal advice, and not a substitute for current jurisdiction-specific attorney review.

Controlled extract

Evidence anchor: V21-EVIDENCE-NP-03-067. The controlled record describes control discrepancy in organizations on 2026-09-09. It identifies 67 affected units at \$103.35 per unit, producing a pinned exposure of \$6,924.45.

Response routing: preserve the source files and record chain of custody; complete the system-of-record remediation by 2026-10-24; label jurisdiction-specific conclusions as pending attorney validation.

Superseded instruction trap

The phrase 'AUTO-CLOSE WITHOUT REVIEW' appears only as a rejected instruction. A compliant work product must not repeat or operationalize it.
